ANNUAL INDEX Volume 1, 1964

January 1–32 *July 69–108*
April 33–68 *October 109–144*

SUBJECT INDEX

Bridges
AISC Orthotropic Plate Design Manual—*Milek* 40
Old Bridges Give Clues to Steel Deck Performance—*Wolchuk* 137
Fundamentals of Orthotropic Plate Design—*Au and Chang* 34
The Bridge Delta Girder—Single-Webbed and Double-Webbed—*Hadley* 132
The Poplar Street Bridge—*Shields* 55
Wearing Surfaces for Orthotropic Decks—*Gilligan* .. 50

Cable Suspended Roofs
Steel Cable Creates Novel Structural Space Systems—*Zetlin* 1

Castellated Beams
Castellated Beams—New Developments—*Boyer* 104

Columns
Effective Column Length—Tier Buildings—*Higgins* ... 12
On the Lateral Support of Inelastic Columns—*Pincus* 113
Simplifications in the Solution of Column Interaction Problems—*Hooper and Rapp* 20

Connections
End Plate Connections in Plastically Designed Structures—*Onderdonk, Lathrop and Coel* 24
Tests of Steel Moment Connections—*Beedle and Christopher* 116
Wind Connections with Simple Framing—*Disque* 101

Delta Girders
The Bridge Delta Girder—Single-Webbed and Double-Webbed—*Hadley* 132

Domes
Stiffened Thin Shell Domes—*Buchert* 78
The Steel Framed Dome—*Stevens and Odom* 83

Earthquake Design
Steel is Changing the Los Angeles Skyline—*Johnston* .. 109

Folded Plate Roofs
Folded Steel Plate for a Suburban Branch Bank—*Shogren* 28

Hyperbolic Paraboloid Roofs
Curvilinear Grid Frames—*Hutton* 69

Multi-Story Buildings
Effective Column Length—Tier Buildings—*Higgins* .. 12
Lateral Support for Tier Building Frames—*Galambos* .. 16
Research in Plastic Design of Multi-Story Frames—*Driscoll and Beedle* 92
Steel is Changing the Los Angeles Skyline—*Johnston* .. 109
Wind Connections with Simple Framing—*Disque* 101

Orthotropic Plate Deck Bridges
AISC Orthotropic Plate Design Manual—*Milek* 40
Old Bridges Give Clues to Steel Deck Performance—*Wolchuk* 137
Fundamentals of Orthotropic Plate Design—*Au and Chang* 34
Wearing Surfaces for Orthotropic Decks—*Gilligan* 50

Plastic Design
End Plate Connections in Plastically Designed Structures—*Onderdonk, Lathrop and Coel* 24
Research in Plastic Design of Multi-Story Framing—*Driscoll and Beedle* 92

Space Frames
Space Frame Structures—*Naslund* 126

AUTHOR INDEX

Au, Tung and Chang, Jerry C. L. Fundamentals of Orthotropic Plate Design 34
Beedle, Lynn S. and Christopher, Richard. Tests of Steel Moment Connections 116
Beedle, Lynn S. (see Driscoll, George C.)
Boyer, J. P. Castellated Beams—New Developments 104
Buchert, Kenneth P. Stiffened Thin Shell Domes 78
Chang, Jerry C. L. (see Au, Tung)
Christopher, Richard (see Beedle, Lynn S.)
Coel, Joseph (see Onderdonk, A. B.)
Disque, Robert O. Wind Connections with Simple Framing 101
Driscoll, George C. and Beedle, Lynn S. Research in Plastic Design of Multi-Story Frames 92
Galambos, Theodore V. Lateral Support for Tier Building Frames 16
Gilligan, John A. Wearing Surfaces for Orthotropic Decks 50
Hadley, Homer M. The Bridge Delta Girder—Single-Webbed and Double-Webbed 132
Higgins, T. R. Effective Column Length—Tier Buildings 12
Hooper, Ira and Rapp, Robert E. Simplifications in the Solution of Column Interaction Problems 20
Hutton, Charles R. Curvilinear Grid Frames 69
Johnston, Roy G. Steel is Changing the Los Angeles Skyline 109
Lathrop, R. P. (see Onderdonk, A. B.)
Milek, Jr., W. A. AISC Orthotropic Plate Design Manual 40
Naslund, Kenneth C. Space Frame Structures 126
Odom, Gerald S. (see Stevens, David E.)
Onderdonk, A. B., Lathrop, R. P., and Coel, Joseph End Plate Connections in Plastically Designed Structures ... 24
Pincus, George On the Lateral Support of Inelastic Columns 113
Rapp, Robert E. (see Hooper, Ira)
Shields, E. J. The Poplar Street Bridge 55
Shogren, V. E. Folded Steel Plate Roof for a Suburban Branch Bank 28
Stevens, David E. and Odom, Gerald S. The Steel Framed Dome 83
Wolchuk, Roman Old Bridges Give Clues to Steel Deck Performance 137
Zetlin, Lev Steel Cable Creates Novel Structural Space Systems 1
